**Q2Power Technologies Up-Lists to OTCQB;
Listed in Mergent Industrial Manual**

LANCASTER, OH, January 12, 2016, Q2Power Technologies, Inc. (OTCQB: QPWR) announced that it has been approved and up-listed to the OTCQB effective as of today. Also, the Company has been published in the January 12 edition of the Mergent Industrial Manual, which provides blue sky securities exemptions for secondary trading in over 40 states.

Q2Power's technology provides a new, cost-effective solution to dispose of waste by converting it to electricity and useful heat. Because of its containerized, modular design, the system can be deployed with minimal time and expense at thousands of small-scale facilities that must dispose of waste such as used fuels, methane and biogas, at increasingly greater costs. Q2Power installed its first system this summer at an Ohio wastewater treatment plant and is on track to deploy commercial units to meet customer demand early in 2016.
