Explanatory Note

This 10-K/A for the transition period ended December 31, 2015 is being filed to provide additional disclosure for Item 9A: Controls and Procedure. The amended Item 9A is set forth below. All other items and sections of the Annual Report on Form 10-K remain the same.

ITEM 9A: CONTROLS AND PROCEDURES

In connection with the preparation of this Annual Report, management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this Annual Report. Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures.

During the evaluation of disclosure controls and procedures as of December 31, 2015, management identified certain material weaknesses in internal control over financial reporting, which management considers an integral component of disclosure controls and procedures. These included a lack of knowledge and experience with accounting for derivative liabilities, reverse mergers and redeemable preferred stock. Management was also understaffed to complete the required work in the timeframe needed, due in part to a lack of funding. Management concluded that, as of December 31, 2015, the Company's disclosure controls and procedures were not effective based on the criteria in *Internal Control – Integrated Framework* issued by the COSO, version 2013.

Management's Annual Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process, under the supervision of the Chief Executive Officer and the Chief Financial Officer, designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with generally accepted accounting principles in the United States (GAAP). Internal control over financial reporting includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Company's assets;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of management and the Board of Directors; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management conducted an assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") as of 2013. As a result of this assessment, management identified certain material weaknesses in internal

control over financial reporting. A material weakness is a control deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. Some of the material weaknesses identified are disclosed below:

- Management has a lack of knowledge and experience with accounting for derivative liabilities, reverse mergers and redeemable preferred stock.
- Management is understaffed to perform the necessary accounting, including preparation of the required financial disclosures, in a timely manner.
- Management has not yet formed an audit committee.

As a result of the material weakness in internal control over financial reporting described above, management concluded that, as of December 31, 2015, the Company's internal control over financial reporting was not effective based on the criteria in *Internal Control – Integrated Framework* issued by the COSO, version 2013.

The Company is in the process of addressing and correcting these material weaknesses. Management will be diligent in its efforts to continue to improve the reporting processes of the Company, including the continued development of proper accounting policies and procedures.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. We were not required to have, nor have we, engaged our independent registered public accounting firm to perform an audit of internal control over financial reporting pursuant to the rules of the Securities and Exchange Commission that permit us to provide only management's report in this annual report.

Changes in Internal Control Over Financial Reporting

Since November 12, 2015, the management of the Company has been replaced completely by the officers and directors of Q2P. These new managers are in the process of instituting new internal controls over financial reporting based on comments provide by the Company's auditors. We anticipate that these changes will materially improve the Company's internal control over financial reporting in the future.
