Anpath Group, Inc. (hereinafter "the Company") was incorporated in the State of Delaware on August 26, 2004. The principal business of the Company is a holding company. The Company's sole subsidiary is EnviroSystems, Inc. (hereinafter "ESI") The Company's name was changed to Anpath Group, Inc. on January 8, 2007 at a special meeting of the shareholders' of the Company. The Company's former name was Telecomm Sales Network, Inc. The Company's headquarters is located in Mooresville, North Carolina. The Company's year end is March 31.

ESI provides infection control products on an international basis through both direct sales and channels of distribution. While ESI's current focus is on the health care market, products are also sold to transportation, military and industrial/institutional markets. ESI products are manufactured utilizing nano-emulsion technology, designed to make the products effective against a broad spectrum of harmful organisms while safe to people, equipment and habitat.

NOTE 1 – BASIS OF PRESENTATION

The foregoing unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Regulation S-B as promulgated by the Securities and Exchange Commission. Accordingly, these financial statements do not include all of the disclosures required by generally accepted accounting principles in the United States of America for complete financial statements. These unaudited interim financial statements should be read in conjunction with the audited financials statements for the period ended March 31, 2006. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments, all of which are of a normal recurring nature, necessary for a fair statement of the results for the interim period presented. Operating results for the nine-month period ending December 31, 2006 are not necessarily indicative of the results that may be expected for the year ending March 31, 2007.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies is presented to assist in understanding the Company's financial statements. The financial statements and notes are representations of the Company's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America, and have been consistently applied in the preparation of the financial statements.

Derivative Instruments

The Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended by SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB No. 133", SFAS No. 138, "Accounting for Certain Derivative Instruments and Certain Hedging Activities", and SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities", which is effective for the Company as of its inception. These statements establish accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. They require that an entity recognize all derivatives as either assets or liabilities in the balance sheet and measure those instruments at fair value.

If certain conditions are met, a derivative may be specifically designated as a hedge, the objective of which is to match the timing of gain or loss recognition on the hedging derivative with the recognition of (i) the changes in the fair value of the hedged asset or liability that are attributable to the hedged risk or (ii) the earnings effect of the hedged forecasted transaction. For a derivative not designated as a hedging instrument, the gain or loss is recognized in income in the period of change. The Company has not entered into derivatives contracts to hedge existing risks or for speculative purposes as of the nine months ended December 31, 2006 and 2005.

ANPATH GROUP, INC.
CONDENSED NOTES TO THE FINANCIAL STATEMENTS
December 31 2006

Fair Value of Financial Instruments

The Company's financial instruments as defined by Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," may include cash, receivables, and advances, accounts payable and accrued expenses. All such instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at December 31, 2006 and March 31, 2006.

Property and Equipment

Equipment is recorded at cost. Depreciation and amortization are provided using the straight-line method over the useful lives of the respective assets, typically 3-7 years. Major additions and betterments are capitalized. Upon retirement or disposal, the cost and related accumulated depreciation or amortization is removed from the accounts and any gain or loss is reflected in operations.

The following table summarizes the Company's fixed assets:

	December 31, 2006	March 31, 2006
Office Equipment	\$ 51,347	\$ 49,046
Furniture & Fixtures	11,825	46,350
Marketing/Trade Shows	2,659	2,659
Manufacturing Equipment	395,138	44,357
Laboratory Furniture	-	4,600
Laboratory Equipment	118,051	33,005
Capitalized Software	135,053	131,843
	714,073	311,860
Accumulated Depreciation and Amortization	(178,226)	(240,476)
Fixed Assets, net	<u>\$ 535,847</u>	<u>\$ 71,384</u>

Depreciation expense for the nine month periods ended December 31, 2006 and 2005 was \$35,455 and \$72,971, respectively.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern.

As shown in the financial statements, the Company incurred a net loss for the nine months ended December 31, 2006 and 2005, and has an accumulated deficit since the inception of the Company. These factors indicate that the Company may be unable to continue in existence. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue existence. The Company anticipates its projected business plan will require a minimum of \$2,250,000 to continue operations in the next twelve months.

Impairment of Long Lived Assets

The Company assesses potential impairment of its long lived assets, which include its property and equipment and its identifiable intangibles such as its trade secrets under the guidance of Statement of Financial Standards No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets." On an annual basis, or as events and circumstances indicate that an asset may be impaired, the Company assesses potential impairment of its long lived assets. The Company determines impairment by measuring the undiscounted future cash flows generated by the assets, comparing the results to the assets' carrying value and adjusting the assets to the lower of the carrying value to fair value and charging current operations for any measured impairment.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. References herein to the Company include the Company and its subsidiaries, unless the context otherwise requires.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements," (hereinafter "SFAS No. 157") which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. Where applicable, SFAS No. 157 simplifies and codifies related guidance within GAAP and does not require any new fair value measurements. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier adoption is encouraged. The Company does not expect the adoption of SFAS No. 157 to have a significant immediate effect on its financial position or results of operation.

In June 2006, the Financial Accounting Standards Board issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109" (hereinafter "FIN 48"), which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company does not expect the adoption of FIN 48 to have a material immediate impact on its financial reporting. The Company is currently evaluating the impact, if any, the adoption of FIN 48 will have on its disclosure requirements.

Reclassifications

Certain amounts have been reclassified from the prior financial statements for comparative purposes.

Revenue Recognition

Revenue is generally recognized and earned when all of the following criteria are satisfied: a) persuasive evidence of sales arrangements exists; b) delivery has occurred; c) the sales price is fixed or determinable; and d) collectibility is reasonably assured.

Persuasive evidence of an arrangement is demonstrated via a purchase order from our customers. Delivery occurs when title and all risks of ownership are transferred to the purchaser which generally occurs when the products are shipped to the customer. No right of return exists on sales of product except for defective or damaged products. The sales price to the customer is fixed upon acceptance of purchase order. To assure that collectibility is reasonably assured, credit evaluations are performed on all customers.

Stock Based Compensation

The Company measures compensation cost for its stock based compensation plans under the provisions of Statement of Financial Accounting Standards No. 123(R), "Accounting for Stock Based Compensations." This statement supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. This statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. This statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123(R), "Accounting for Stock-Based Compensation", requires companies to include expenses in net income (loss) and earnings (loss) for each issuance of options and warrants. The Company uses the Black-Scholes option valuation model to value its issuance of options and warrants.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 3 - CONCENTRATION OF CREDIT RISK

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash. The Company places its cash and cash equivalents with what management believes to be high credit quality financial institutions. At times such investments may be in excess of the FDIC insurance limit. The Company maintains cash balances at several financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100,000. At December 31, 2006 and March 31, 2006, the Company's uninsured cash balances total was \$1,087,626 and \$3,201,749, respectively.

NOTE 4 - INVENTORIES

Inventories consist of the following:

	December 31,	March 31,
	2006	2006
Raw material	\$ 87,161	\$ 134,710
Work-in-progress	-	-
Finished goods	13,320	30,482
Allowance for obsolescence	-	(60,000)
Inventory, net	\$ 100,481	\$ 105,192

NOTE 5 - RESERVE FOR PRODUCT RETURNS

During the period ending March 31, 2006, the Company in response to communications from the U.S. Environmental Protection Agency decided voluntarily to suspend sales, marketing and distribution of its EcoTru® disinfectant products and has initiated a retrieval program to recover existing stocks of EcoTru® that have been distributed since January 2005 and remain in customer inventories. At December 31, 2006 and March 31, 2006, the Company has accrued \$23,099 and \$270,000, respectively, which is its best estimate of its obligation regarding the EPA action and voluntary recall. This is presented under the caption "reserve for product returns" in the accompanying balance sheet.

NOTE 6 - COMMITMENT AND CONTINGENCIES

Operating Leases

The Company, has formal operating leases for all of its office and laboratory space. Rent expense relating to operating spaces leased was approximately \$88,419 and \$78,765 for the nine months ended December 31, 2006 and 2005, respectively.

Executive Employment Contracts

The Company has entered into a three year employment contract with a key Company executive that provides for the continuation of salary to the executive if terminated for reasons other than cause, as defined in those agreements. At December 31, 2006, the future employment contract commitment for such key executive based on this termination clause was approximately \$18,750 per month through January 9, 2009. The Company also issued 750,000 stock options to purchase 750,000 common stock shares at \$2.50 per share. Of these, 250,000 were fully vested at March 31, 2006 with the balance vesting at a rate of 250,000 each at March 31, 2007 and 2008.

U.S. Environmental Protection Agency and Product Recall

The Company announced on February 7, 2006 that in response to communications from the U.S. Environmental Protection Agency ("EPA") that EnviroSystems, Inc., its wholly owned subsidiary had decided voluntarily to suspend sales, marketing and distribution of its EcoTru disinfectant products and has initiated a retrieval program to recover existing stocks of EcoTru that have been distributed since January 2005 and remain in customer inventories. The Company believes that it has retrieved all of the known product that was still in its distributors' inventory and has settled all known claims with distributors. The Company has settled with the EPA for a fine and administrative charges of \$16,358. The Company has re-submitted to the EPA in June 2006 its EcoTru product for approval as a limited disinfectant and is continuing to test the product to be able to pass the EPA requirement as a hospital grade disinfectant.

Lease Agreements

The Company has entered into two lease agreements for office and laboratory facility. The first agreement for laboratory facility requires payments of \$10,800 yearly beginning in July 2006. The laboratory is located in Cleveland, OH. The office lease requires payments of \$156,000 over a two year period beginning in August 2006. There are two one year options to extend this lease at a rate of \$62,400 per year. The office is located in Mooresville, NC.

NOTE 7 - PREFERRED STOCK AND COMMON STOCK

Preferred Stock

The Company is authorized to issue 5,000,000 shares of \$0.0001 par value preferred stock, which may be issued in one or more series at the sole discretion of the Company's board of directors. The board of directors is also authorized to determine the rights, preferences, and privileges and restrictions granted to or imposed upon any series of preferred stock. As of December 31, 2006, no preferred stock has been issued by the Company.

Common Stock

The Company is authorized to issue 100,000,000 shares of \$0.0001 par value common stock. All shares have equal voting rights, are non-assessable and have one vote per share. Voting rights are not cumulative and, therefore, the holders of more than 50% of the common stock could, if they choose to do so, elect all of the directors of the Company.

Sale of Common Stock

Pursuant to a securities purchase agreement dated as of October 31, 2005 by and between Anpath Group and MV Nanotech Corp., a Texas corporation ("MV Nanotech"), the Company issued and sold to MV Nanotech 3,230,000 shares of the Company's restricted common stock, par value \$0.0001 per share and a warrant to purchase up to an additional 4,000,000 shares of common stock. The warrant is exercisable for a period of 4 years commencing 90 days after the date of issuance and has an exercise price of \$2.50 per share. Pursuant to the agreement, MV Nanotech paid Anpath Group \$80,750 for the securities, of which \$40,375 was paid in cash with the remainder in a non-interest bearing promissory note receivable, later paid on January 12, 2006.

The securities were issued to MV Nanotech in a transaction exempt from the registration requirements of the Securities Act of 1933, as amended in reliance on Section 4(2) of the Act and the safe harbor private offering exemption provided by Rule 506 promulgated under the Act, without the payment of discounts or commissions to any person.

Merger and Recapitalization

Prior to the merger and recapitalization (described below), there were 7,350,000 shares of the Company's common stock outstanding. This included 4,120,000 shares of common stock issued for cash to the Company's shareholders, officers and directors and 3,230,000 shares issued to MV Nanotech. The Company purchased and retired 2,000,000 shares of its common stock from its former officers and directors immediately prior to the merger and private placement transactions, leaving 5,350,000 shares of the Company's common stock outstanding at the time of the merger and private placement transactions.

On January 10, 2006, the Company completed the acquisition of EnviroSystems, Inc. ("EnviroSystems") in a merger transaction. The Company issued 6,400,000 shares of common stock in exchange for all the outstanding shares, options and warrants of EnviroSystems, Inc. Pursuant to an agreement and plan of merger dated as of November 11, 2005 (the "Merger Agreement"), by and among the Company, TSN Acquisition Corporation ("TAC"), a newly formed and wholly owned subsidiary of the Company, and EnviroSystems, Inc. ("EnviroSystems"), TAC merged with and into EnviroSystems, with EnviroSystems as the surviving corporation. On January 10, 2006, prior to the merger, the Company had \$4,177 in cash, a

note receivable of \$40,375, and liabilities of \$10,869 with net assets of \$33,683 and 5,350,000 common stock shares issued and outstanding.

The transaction between the Company and EnviroSystems has been treated as a reverse merger and recapitalization of EnviroSystems for reporting purposes. The Company's filed financial statements reflect the restatement of EnviroSystems stockholders' equity for the periods ending March 31, 2006 and 2005. The net effect of the merger is that the prior EnviroSystems preferred shareholders received 40% or 6,400,000 shares of the outstanding stock of the Company in the transaction for their outstanding shares, warrants and options of EnviroSystems preferred stock.

All shares of the Company's common stock to be issued to the EnviroSystems shareholders, option holders and warrant holders (6,400,000 shares) in the merger are subject to a lock-up and held in escrow for a period equal to the longer of (a) 12 months following the closing or (b) 9 months after the effective date of a registration statement covering the resale of the shares of the Company's common stock sold in the offering, provided, that such lock-up period shall not exceed the date 15 months from the closing. The escrow shares will be used to secure indemnification obligations of EnviroSystems shareholders to the Company under the merger agreement.

In November 2006 the Company elected to exercise its right to seek indemnification and made a claim seeking the return of all 6,400,000 shares held in escrow. Pursuant to the terms of the Escrow and Lock-Up Agreement, if the Company determined that it had a claim for damages under the Merger Agreement, the Company had up to one year from the closing of the Merger to submit a claim seeking the return of shares held in escrow. The Company is currently in negotiations with representatives of the EnviroSystems preferred stockholders and all parties to the negotiations are hoping to reach an amicable resolution. The Company has not set a time frame for the conclusion of the negotiations and cannot say when the negotiations will be concluded. Further, the Company cannot say whether or not its claim will be successful or if the Company will receive any or none of the shares it is seeking.

Outstanding options and warrants to purchase EnviroSystems preferred stock were converted to options to purchase the Company's common stock at the merger date. In the merger, outstanding options to purchase common stock of EnviroSystems were converted into 982,362 common stock options of the Company. These options range in price from \$3.40 to \$5.00 per option and start to expire in approximately 4 years to 8 years.

Also in the merger, outstanding warrants to purchase preferred stock of EnviroSystems were converted into 613,869 common stock warrants of the Company. These warrants are priced at \$5.00 per warrant and start to expire in approximately 3 months to 4 years.

Private Placement

On January 10, 2006, the Company also issued 4,250,000 shares of common stock in a private placement offering in exchange for \$8,500,000 in gross proceeds. The Company received \$6,951,084 after paying \$1,548,916 in expenses associated with the private placement including legal, escrow and selling agents fees. The merger agreement called for minimum gross proceeds from the private placement of \$8,500,000 and net offering proceeds of \$7,200,000. The Company's net offering proceeds were \$248,916 lower than the agreed upon amount due to increased expenses of the offering including legal and other expenses of the private placement. This is a violation of the merger agreement but had no effect on the merger transaction.

NOTE 8 - STOCK PURCHASE WARRANTS

Pursuant to a securities purchase agreement dated October 31, 2005, the Company issued and sold to MV Nanotech a warrant to purchase up to 4,000,000 shares of common stock. The warrant is exercisable for a period of 4 years commencing 90 days after the date of issuance and has an exercise price of \$2.50 per share. See Note 9. Compensation was required to be recorded for warrants granted to the MV Nanotech using the Black-Scholes option-pricing model for the year ended March 31, 2006 in the amount of \$220,033.

ANPATH GROUP, INC.
CONDENSED NOTES TO THE FINANCIAL STATEMENTS
December 31 2006

In connection with the private placement offering on January 10, 2006, the Company issued 637,500 common stock warrants to three selling agents of the private placement offering for purchase of the Company's common stock. The warrants are exercisable for a period of 4 years commencing April 10, 2006 and have an exercise price of \$2.50 per share.

The following is a summary of all common stock warrant activity during the year ended March 31, 2006 and the nine months ended December 31, 2006:

	Number of Shares Under Warrants	Exercise Price Per Share	Weighted Average Exercise Price
Warrants issued and exercisable at: March 31, 2005	613,869	\$ 5.00	\$ 5.00

\$5.00	89,436	3.41	5.00
	5,074,401	3.09	\$ 2.72

The Company used the Black-Scholes option price calculation to value the warrants granted in the year ending March 31, 2006 using the following assumptions: risk-free rate of 4.50%; volatility of 63%; zero dividend yield; half the actual exercise term of the warrants granted and the exercise price of warrants granted.

NOTE 9 - EQUITY COMPENSATION PLAN

The Company has two stock option plans: (a) the 2006 Stock Incentive Plan which has been approved by the Board of Directors and is expected to be presented for shareholder approval at the next shareholders' meeting and (b) the 2004 Equity Compensation Plan which has been approved by both the Board of Directors and the shareholders. An aggregate amount of common stock that may be awarded and purchased under the Plans is 3,700,000 shares of the Company's common stock.

The exercise price for incentive stock options granted under the 2006 and 2004 Plans may not be less than the fair market value of the common stock on the date the option is granted, except for options granted to 10% stockholders which must have an exercise price of not less than 110% of the fair market value of the common stock on the date the option is granted. The exercise price for nonstatutory options is determined by the Compensation Committee of the Company's Board of Directors. Incentive stock options granted under the plans have a maximum term of ten years, except for grants to 10% stockholders which are subject to a maximum term of five years. The term of nonstatutory stock options is determined by the Compensation Committee. Options granted under the plans are not transferable, except by will and the laws of descent and distribution.

Under the Plans during the year ended March 31, 2006 and the nine months ended December 31, 2006 the Company granted 325,750 and 1,150,000 stock options to employees and members of the Board of Directors.

The Company also issues stock options to consultants to purchase restricted Rule 144 common stock which is not issued under the Plans. During the nine months ended December 31, 2006 and 2005, the Company granted 15,645 and -0- options to consultants to purchase common stock with exercise prices of \$1.70 to \$2.95 per share which was equal to or higher than the market price at the date of the grant. Consulting expense was required to be recorded for options granted to the consultants using the Black-Scholes option-pricing model for the nine months ended December 31, 2006 and 2005 in the amounts of \$17,825 and \$-0-, respectively.

The following is a summary of all common stock option activity during the year ended March 31, 2006 and the nine months ended December 31, 2006:

	Shares Under Options Outstanding	Weighted Average Exercise Price
Options outstanding at March 31, 2005	2,662,908	\$ 2.34

Total compensation cost related to non-vested stock options as of December 31, 2006 was \$1,049,788.

Weighted average period of non-vested stock options was 9.45 years as of December 31, 2006.

The Company used the Black-Scholes option price calculation to value the options granted in the nine months ended December 31, 2006 using the following assumptions: risk-free rate of 4.5%; volatility of 63%; zero dividend yield; half the actual term and exercise price of warrants granted.

NOTE 10 - RELATED PARTY TRANSACTIONS

The Company previously used office space provided at no charge by Skye Source, LLC, an entity owned by the Company's former director/officers. The value of this space is not considered materially significant for financial reporting purposes.

The Company owed a former officer of EnviroSystems, \$68,389 in unpaid payroll from prior years. The Company paid this amount from the proceeds of the private placement in January 2006.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Report contains certain financial information and statements regarding our operations and financial prospects of a forward-looking nature. Although these statements accurately reflect management's current understanding and beliefs, we caution you that certain important factors may affect our actual results and could cause such results to differ materially from any forward-looking statements which may be deemed to be made in this Report. For this purpose, any statements contained in this Report which are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the generality of the foregoing, words such as "may", "intend", "expect", "believe", "anticipate", "could", "estimate", "plan", or "continue" or the negative variations of these words or comparable terminology are intended to identify forward-looking statements. There can be no assurance of any kind that such forward-looking information and statements in any way reflect our actual future operations and/or financial results, and any of such information and statements should not be relied upon either in whole or in part in any decision to invest in the shares. Many of the factors, which could cause actual results to differ from forward looking statements, are outside our control. These factors include, but are not limited to, the factors discussed under "Risk Factors" in our Transition Report on Form 10-KSB filed on June 29, 2006 and incorporated herein by reference.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Overview

From our inception in August 2004, until our acquisition of EnviroSystems in a merger transaction in January 2006, we had no material assets and/or business operations. As a result of the merger, EnviroSystems became our wholly owned subsidiary and our business became that of EnviroSystems. EnviroSystems was incorporated in the State of Nevada in 1996.

Shortly after we acquired EnviroSystems, our business activities were redirected after we received notice from the Environmental Protection Agency (EPA) Region 9 in January 2006 that the results of random tests of a single sample of our EcoTru[®] product taken from a distributor's inventory raised issues regarding EcoTru[®]'s labeling claims. In response, we suspended sales, marketing and distribution of EcoTru[®]. We also undertook a voluntary retrieval program to recover stocks of EcoTru[®] that were manufactured during 2005 that still remained in customers' inventories. Since January 2006, our business activities have been focused upon aggressively reviewing all aspects of our EcoTru[®] product line. In addition to efforts to establish new manufacturing facilities, independent testing is ongoing in conjunction with a program to review and enhance our archive of test data. Further, we are instituting a new quality assurance program. While we believe that these product reviews and quality initiatives will address issues raised by the EPA, these same programs are integral parts of our business plan and include steps we began taking prior to the EPA inquiry. A final settlement that resolved EPA's allegations recently was completed with EPA and provided for payment by EnviroSystems of a civil penalty of approximately \$16,500. The Consent Agreement with EPA was completed and signed by both parties and filed by EPA during June 2006; the fine was paid in a timely manner during July. *See, Description of Business – Recent EPA Action and Product Retrieval Program.*

Our EcoTru[®] product is produced using a proprietary and we believe unique, emulsion biocide technology platform that we expect to reformulate for use as a hospital grade hard-surface disinfectant product. This product, which will be an update of our product that historically was known as EcoTru[®] is expected to demonstrate through testing that it will effectively kill numerous bacteria, fungi, and viruses, including Hepatitis B and C, HIV, herpes and influenza. In addition to being highly effective as a disinfectant, the updated EcoTru[®] is expected to occupy a unique position in the market place in that it will combine this microbial effectiveness in a disinfectant product which also will have a favorable profile for health and environmental effects.

EcoTru[®] is expected to become available again in 22 ounce spray containers, one gallon bottles, 5 gallon pails and 55 gallon drums. The Company also produces a cleaning wipes product and plans to develop and test a wipe with the intent to register the product as a disinfectant wipe with EPA. We intend to market a disinfecting wipe with similar claims as those authorized for EcoTru[®] once EPA registration has been granted. We intend to apply to register our wipe technology with the EPA as soon as possible.

Recent EPA Action and Product Retrieval Program

In January 2006, we received notice from the EPA Region 9 that it had conducted random tests of a single sample of our EcoTru® product taken from a distributor's inventory and that the results of such tests raised issues regarding EcoTru®'s labeling claims. In response, during January 2006, we: (1) voluntarily suspended sales, marketing and distribution of EcoTru®; (2) immediately initiated a retrieval program to recover stocks of EcoTru® manufactured during 2005 that were remaining in customer inventories; (3) promptly commenced a comprehensive review of our manufacturing procedures and quality standards; (4) began formulary exploration efforts; and (5) contracted independent testing to support updated and potential additional label claims. We believe that these new efforts, when combined with the previous data set which substantiated our prior labeling and marketing claims for the EcoTru® products, will support new submissions to EPA and the reintroduction of EcoTru®. We have commenced installation of a new manufacturing process for our broad spectrum disinfectant formulation (and new product introductions) with the intent to reintroduce the EcoTru® product upon reauthorization by EPA. We are exploring multiple process/quality improvements in advance of our anticipated return to the hospital grade disinfectant market.

The EPA commenced its nation-wide antimicrobial products efficacy program more than a decade ago in response to a study issued by the U.S. Government Accounting Office which found that the EPA lacked assurance that antimicrobial products registered by the EPA were efficacious. Accordingly, we understand that the EPA has committed itself to re-examining all EPA registered antimicrobial products that claim to control pathogenic organisms at specified levels in accordance with strict standards for performance established by the U.S. government. The EPA, through use of its own testing laboratory and certain state-run labs, has completed testing of sterilant products and currently is testing approximately 800 EPA-registered hospital-level disinfectants and 150 tuberculocides.

Although we believe that the data previously submitted to the EPA supports appropriate labeling and marketing claims for our EcoTru® products and we expect to generate new data that will be consistent with the numerous studies EnviroSystems generated over the years and which previously have been submitted to EPA in support of our claims, we cannot assure that the EPA will accept such data or that we will be able to resume sales, marketing and distribution of our EcoTru® products using identical claims under our prior EPA registration.

We recently filed an application for EPA registration of a new disinfectant product based on EnviroSystems' proprietary technology. It is anticipated that this product will include new label claims not previously made for EcoTru® products. We have also commenced analysis of a new manufacturing process for our products.

Change in Fiscal Year

On January 26, 2006, our Board of Directors approved a change in our fiscal year-end from September 30 to March 31 in order to have our fiscal year-end coincide with the fiscal year of our operating subsidiary, EnviroSystems, Inc. In the future, we will report on a March 31 year end basis, with our first three fiscal quarters ending on June 30, September 30, and December 31.

Results of Operations

Nine Months Ended December 31, 2005 compared to Nine Months Ended December 31, 2006

Overview: Our current focus for the Company is to resubmit EcoTru® to the EPA or identify an equivalent product opportunity. We have added one additional research position to our laboratory facility in Mentor, OH. At September 30, 2006 we closed our Santa Clara, CA office and moved our operations to our Mooresville, NC office.

Revenues. Our revenues for the nine months ended December 31, 2006 and 2005 were \$56,975 and \$409,206, respectively. This is a decrease of \$352,231 or 86.1%. This decrease is directly attributable to the EPA action and the Company's voluntary recall and suspension of sales during the last quarter of our prior fiscal year. All of our revenues for the nine months ended December 31, 2006 are from the sale of our wipes which were not affected by the EPA action.

Cost of Sales. Cost of sales for the nine months ended December 31, 2006 and 2005 were \$103,576 and \$445,197, respectively, a decrease of 341,621 or 76.7%. This decrease is directly attributable to the EPA action and the Company's voluntary recall and suspension of sales during the last quarter of our prior fiscal year.

Operating Expenses. Total operating expenses for the nine months ended December 31, 2006 and 2005 were \$1,766,586 and \$532,381, respectively, an increase of \$1,234,205. Operating expenses for the nine months ended December 31, 2005 included a credit of \$443,528 in settlement of outstanding liabilities owed to Diana Hoffman, our former President and CEO. Before this one time credit, our operating expenses for the nine months ended December 31, 2005 were \$975,909. We hired additional personnel, including our Vice President of Sales and our Chief Science Officer in February 2006. We did not have these positions filled in the nine months ended December 31, 2005. We also incurred additional cost in the nine months ended December 31, 2006 for the EPA action and related research cost. The nine months ended December 31, 2006 also includes \$180,214 compensation cost related to vested stock options issued.

Liquidity and Capital Resources

For the nine months ended December 31, 2006, we used \$1,707,967 in operating activities, compared with \$592,941 used in operating activities for the nine months ended December 31, 2005. The Company reduced its product recall reserve by \$246,901 during the six months ended December 31, 2006.

At December 31, 2006 and March 31, 2006, we had cash and cash equivalents available in the amounts of \$1,212,689 and \$3,420,358, a decrease of \$2,207,669.

Contractual Obligations

We have entered into two lease agreements for office and laboratory facilities. The first agreement for laboratory facility requires us to pay \$10,800 yearly beginning in July 2006. The laboratory is located in Mentor, OH. The office lease requires us to pay \$156,000 over a two year period beginning in August 2006. We have two one year options to extend this lease at a rate of \$62,400 per year. The office is located in Mooresville, NC.

Effective August 1, 2006, EnviroSystems, Inc., the wholly owned subsidiary of Anpath Group, Inc. entered into a manufacturing agreement with Minntech Corporation, a Minnesota corporation pursuant to which Minntech has agreed to be the exclusive U.S. manufacturer of EnviroSystems' disinfectant product.

The Manufacturing Agreement provides the terms and conditions pursuant to which Minntech will manufacture and supply to ESI all of ESI's requirements for the Product. Manufacturing of the Product is expected to commence sometime in March-April 2007. The Manufacturing Agreement has a term of three years commencing after the first shipment of commercial quantities of the Product by Minntech to ESI, provides for automatic one year renewals if not terminated by one of the parties. The Manufacturing Agreement may be terminated by either party upon 90 days prior written notice.

Off Balance Sheet Arrangements

We currently have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements. These statements have been prepared in accordance with generally accepted accounting principles in the United States of America. All intercompany balances and transactions have been eliminated in consolidation.

Use of estimates in preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, based on historical experience, and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The following critical accounting policies rely upon assumptions, judgments and estimates and were used in the preparation of our consolidated financial statements:

Accounts Receivable

Accounts receivable are uncollateralized customer obligations due under normal trade terms requiring payment within thirty days from the invoice date or as specified by the invoice and are stated at the amount billed to the customer. Customer account balances with invoices dated over ninety days or ninety days past the due date are considered delinquent.

The carrying amount of accounts receivable is reduced by a valuation allowance that reflects management's best estimate of the amount that will not be collected. Management individually reviews all accounts receivable balances that are considered delinquent and based on an assessment of current credit worthiness, estimates the portion, if any, of the balance that will not be collected. In addition, management periodically evaluates the adequacy of the allowance based on the Company's past experience.

Trade Secret

The trade secret of the formula/formulation of ESI's product, at the time acquired by the Company was based upon the valuation of an independent appraiser.

Impairment of Long Lived Assets

The Company assesses potential impairment of its long lived assets, which include its property and equipment and its identifiable intangibles such as its trade secrets under the guidance of Statement of Financial Standards No. 144 *Accounting for the Impairment or Disposal of Long Lived Assets*. Once annually, or as events and circumstances indicate that an asset may be impaired, the Company assesses potential impairment of its long lived assets. The Company determines impairment by measuring the undiscounted future cash flows generated by the assets, comparing the results to the assets' carrying value and adjusting the assets to the lower of the carrying value to fair value and charging current operations for any measured impairment.

Revenue Recognition

Revenue is generally recognized and earned when all of the following criteria are satisfied: a) persuasive evidence of sales arrangements exists; b) delivery has occurred; c) the sales price is fixed or determinable, and d) collectibility is reasonably assured.

Persuasive evidence of an arrangement is demonstrated via a purchase order from our customers. Delivery occurs when title and all risks of ownership are transferred to the purchaser which generally occurs when the products are shipped to the customer. No right of return exists on sales of product except for defective or damaged products. The sales price to the customer is fixed upon acceptance of purchase order. To assure that collectibility is reasonably assured we perform ongoing credit evaluations of all of our customers.

Provision for Taxes

Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" ("SFAS No. 109"). Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against the deferred tax asset if management does not believe the Company has met the "more likely than not" standard imposed by SFAS No. 109 to allow recognition of such an asset.

Contingent Liability

In accordance with Statement of Financial Accounting Standards Interpretation No. 14, the Company may have certain contingent liabilities with respect to material existing or potential claims, lawsuits and other proceedings. The Company accrues liabilities when it is probable that future cost will be incurred and such cost can be measured.

ITEM 3. CONTROLS AND PROCEDURES.

As of the end of the period covered by this report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based upon this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is: (1) accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure; and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

During the most recent fiscal quarter, there has been no significant change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

4. The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
